

OPENING YOUR HOTEL AFTER **COVID-19** LOCKDOWN

After the shut down period designed to assist with the breaking of infection has been completed there will need to be a period of adjustment to ensure we continue to break the chain of potential infection.

Here is a checklist for Hotel Operators, Motel Owners, and team members to protect themselves and their guests.

Touch points is a term used to describe a part of your building that is a common point shared by staff and guests, such as door handles, light switches, washrooms, Eftpos terminals and the like.
